

Interstate Fleet Control™ begins with properly configured fuel purchasing rules for your business that are enforced at the time of fueling. We complete the fuel management process by providing extensive oversight through our management reports and billing invoice.

- 1 Complete transaction detail by driver or vehicle.
- 2 Accurate time and date information with every transaction.
- 3 Complete location descriptions simplify auditing of activity.
- 4 Product descriptions
- 5 Odometer readings collected at the fuel island
- 6 MPG analysis critical for detecting abuse! Fluctuating MPG as in example show not all of the fuel purchased is making it into the vehicle.
- 7 Price paid per gallon including all taxes
- 8 Totals by driver or vehicle
- 9 Month to date purchase summaries for all drivers and vehicles by product and state of purchase, including tax breakout.
- 10 Monitor average price paid per gallon.
- 11 Early pay discount calculation.
- 12 Current and year to date summaries including gallons
